In terms of name dropping a few Advisors who I suggest we need as nonpartisan support - strategic Government Influencers (National Economic Council/GMS 's Gary Cohn), PE Funds (Carlyle's George W Bush), Boutique IBs and Wealth Managers such as Bridgewater Associate's (Greg Jensen).. I suggest we plan a solid force for getting in contact with them when we are ready.

Sorry don't mean to pile a bunch of stuff here, just excited for everything to come together in 2017 through our synergies and partnership. Best Wishes and Happy Holidays with Family and Friends!!!

In terms of technical diligence to support Thorium funding and research we should seek the mentorship of those who authored this summary: (https://www.nrc.gov/docs/ML0903/ML090340159.pdf)

Lots to do. Also another thing I believe you and Antwain may be equally interested in is my deep Private Equity (IP / tech stack consolidation) interests, which nicely compliments the emerging technologies & crowded startup marketplaces within big data/ ML algorithms/ cybersecurity market opportunities & innovations occurring. I prefer to discuss technicals on the phone and speak high level over chat.

some news on their current focus, roadmap, and funding qualms. In my opinion, we should be "leveraging" / persuading every single chemistry and physics Ph. D and Masters student across the States, Country, and Globe to join by incentivizing them to participate in such a large growth opportunity with "a lot of money put into that".

Also we need to reach out to these ***(http://www.nei.org/Knowledge-Center/Nuclear-Statistics/US-Nuclear-Power-Plants/US-Nuclear-Operators,-Owners-and-Holding-Companies)*** holding companies and get their feedback on this (http://energyfromthorium.com/pdf/)

I am pleased to have your morale & inspirational approval for this initiative.
The work here will influence world markets, and reclarify where we stand in the financial sphere globally.
It is as if we both belong to a single larger consciousness!
I plan to share your above links as part of our website launch campaign.
Sounds like a plan. I think it will peak the interest of the collective.
Great.
Yes, as well as encourage the support of individual members in said #berg groups.

As we begin our funding campaign next month, I plan to request Alistair Rothschild who I am connected with on LinkedIn & 'not a friend' on Facebook to play exactly that role in both influential groups and forums. I believe the above to be of sufficient intrigue as to acquire his interest in layered sophistication.
Powerful strategy.
Thank you, I plan to send it as screenshots of this very correspondence.

contract law. Unless they want to change the entire UCC doctrine. Doubtful that will happen.

Doesn't matter the likelihood of it, today we implement a Restructuring of the system that will better facilitate future doctrine

It's something that should be tested as you said through smaller circles. However, true sovereigns aren't affected by these rules. Your royal contacts will tell you.

The idea of contracts extend to the days of Caesar and Rome. It's as old as time itself.

SS521 is the Withdrawal of Social Security Benefits.

I am anxious to begin our New Year New - New Age Campaign of & for Campaigns.

Proliferating the Sovereign Wealth of Nations

You list your birth certificate on the UCC-1 form as your property, which gives title back to you, not the strawman.

The SS521 negates your tax ID, which prevents the govt from trading your birth as a commodity on the stock exchage.

MON AT 12:48 AM

Thanks are you recommending posting this.

You can. It's a good primer to our sovereign network.

Write a message...

https://youtu.be/TZ7Wzmngd9w

Sovereign Wealth provides the best way forward for all Nations to Rebrand/Channel, the negativity around the deep emotional stir patriotic citizens experience when learning the hard economic truth of financing the Sovereignty of Nations.

Association of value changing (with International recognition) from the Physical Person/Body Birth Certificate "slavery" to the inherent (Quantitative) value of one's "Free Creative Mind"/Mentality or Intellectual property-potential value" In this way patriotic citizens in each respective nation, compelled to participate and contribute to success, respect and prosperity of the country is symbolically "freed" and encouraged to, "Think and be rich". Empowering citizens to be more, to dream!

The intrinsic beauty is moving forward the economic value of further educated and creative minds is, both in benefit of the People as well as the State. Further addressed are economic concerns around "Fiat Monetary policy" as a note we exchange to represent ones contribution in both private and public capacities. Recognizing one need Not to be "physically" present to be entitled to compensation.
Infrastructure now becomes the contribution of past generations, providing for the quality of life we have as a community, building together internationally with shared vision in higher objectives. So cash is labeled what it is,
"the grease of economic engines" and representative of the facilitative value provided by States to the people the ability to stay competitive internationally.

Write a message...

https://youtu.be/hdrrFM0_VFA

Beginning with these and other independent videos, presents Sovereign Wealth as the needed creative solution of the people, that it is & allows us to reach the fringes of society with a grass roots movement. Unifying the Nation in creating a new honest economic understanding based on higher shared objectives. Recognizing that without the "free creative minds" of skilled citizens the State will fall into disrepair and collapse, while producing the terrorism and extremism we continually see sprouting up in oppressed communities around the world.

I look forward to your thoughtful collaborations and wish you success in all your endeavors.

"By the inquiry and support of our peers, we bring visions to fruition."

Warm regards, Lee
